
Technical Rider | BYUI Chamber Orchestra: Sinfonietta2026 Tour

The following information outlines the technical requirements of the BYU-Idaho's Chamber Orchestra: Sinfonietta.

Performance Area: A minimum performance area 40 feet wide x 25 feet deep is requested.

Equipment: A minimum of 30 chairs, 30 music stands, 1 conductor's stand, 1 conductor's podium, and an acoustical shell if available. Please have all requested equipment set on stage prior to the group's arrival according to the seating chart which will be provided. *Some adjustments to the chairs and stands may be made after arrival to accommodate spacing needs. BYU-I can provide folding music stands and the conductor's podium if not available.*

Sound: A microphone and stand with an on-off switch connected to the house PA system for announcements and narration during the concert.

Lighting: Sufficient lighting for the musicians and instruments to be well lit and visible to the audience. Strong overhead lights should illuminate the entire stage area so that performers are able to see their music clearly.

Accoustics: Since drapes or curtains muffle the sound, it is better to draw them back/up and leave the area open to the walls. If an acoustical shell is available, please have it set prior to the group's arrival.

Dressing Rooms/Storage: There are 30 musicians in the group. Two securable large rooms/spaces should be provided close to the stage area for dressing, storage of instrument cases, and the securing of personal belongings during the concert.

Preferred Day-Of Schedule

3:30 pm - Load-in/Sound Check

5:30 pm - Dinner: at venue, provided by local caterer

6:30 pm – Prep for concert

7:00 pm - House opens: exact time will be determined by the venue

7:30 pm - Concert begins: 75 minute concert, no intermission

8:45 pm - Load-out will begin at the conclusion of the show and will take approximately 1 hour. Selected musicians will meet and greet audience members in the house and lobby after the concert.
